

The Guardian Mini-ROV is an ultra-

portable underwater inspection robot, equipped with 4 horizontal thrusters and one vertical thruster, capable of operating at depths of up to 150m. It is equipped with 2 high-resolution color cameras (1 full HP camera in IP version), including one mounted on a Pan & Tilt turret, offering inspections over distances of up to 500 m in the long-distance option.

With an optional plug, it can also be fitted with various accessories such as sonars, probes and manipulators. The complete system, including console and umbilical, is packaged in a single case weighing 29 kg.

VIDEO CAMERAS

The Mini-ROV Guardian is equipped with 2 high-sensitivity 700 TVL cameras. The rear camera is fixed and the front camera is mounted on a Pan & Tilt.

PROPULSION

Equipped with 4 longitudinal and 1 vertical thrusters, the Guardian Mini-ROV can reach speeds of up to 3 knots.

ANCILLARY PLUG

The quick plug interface available on the Guardian Mini-ROV allows easy integration of many options such as sonars, USBL positioning system, US and CP probes, etc.

TECHNICAL SPECIFICATIONS

MAIN FEATURES

Depth rating	150m		
ROV dimensions	L 470mm x W 254mm x H 160mm		
ROV weight	4,5kg in air / neutral in water		
ROV max. speed	3 knots (max. current 2 knots)		

PROPULSION AND POWER SUPPLY

Thrusters	5 fully-flooded brushless thrusters : 4 horizontal and 1 vertical
Power supply	External power 220 VAC (110 VAC on demand)

SYSTEM CONTROL

Piloting	Console integrated in a waterproof case or PC (IP version)				
Video display	8" LCD screen with data overlay or 17"				
	(IP version)				
Control	2 multi-function joysticks and soft touchpad				
Recorder	Digital recorder/reader on SD card				
Auto functions	Heading, depth, Up/Down, speed				
Video outputs	2 RCA connectors				

INTEGRATED SENSORS

Front/rear cameras	Colour video camera 700 TVL, 0,01 lux
Pan & Tilt	Pan&Tilt unit integrated on front camera, optional on rear camera
Lighting	Front: 4 x 1200 lumens, Rear: 1000 lumens, intensity control
Sensors	Compass, depth, temperature, leak detector (internal moisture level)

UMBILICAL

Standard	100m : 80m (Ø 6,3mm) + 20m buoyant (Ø 7,9mm), integrated Kevlar braid
Optional lengths	Extensions with customized lengths up to 300m on demand 500 m in long-distance option

PACKAGING

Transport	Single transport case including ROV, console, umbilical and transformer
Dimensions	L 640mm x I 500mm x H 380mm
Weight	29 kg

MAINTENANCE AND WARRANTY

Documentation	Operator manual in hard and soft versions
Maintenance	No specific maintenance needed
Warranty	1 year parts and labor excluding transport costs

OPTIONS

Acoustic camera	2D imaging sonar Teledyne Blueview M series or BluePrint Oculus				
Mechanical sonar	Tritech Micron DST or equivalent				
Acoustic posit.	BluePrint Seatrac USBL				
Thickness measure- ment	Cygnus US gauges				
CP measurement	Buckleys CP probes				
Physico-chem. measures	Salinity, pH, turbidity gauges				
Manipulator	2 functions manipulator				
Samplers	Water and sediments samplers				
Defect scaling	Laser pointer scaling tool with software				
WiFi link	Wifi video transmission on external screen				
Contrat support	Annual maintenance contract
